Profile

I am a 24 years old, Macedonia-based, Ruby on Rails developer. For more than three years my tools of choice are Ruby, Rails and JavaScript. Furthermore, I am interested in Open Source, contributing, mentoring and helping other people in learning the craft of programming. In my spare time I contribute to the Free and Open Source (FOSS) community and to various open source projects. Additionally, I developed and actively maintain multiple Ruby gems, organized workshops and blog regularly about Ruby and Elixir on my website.

Experience

Ruby on Rails Developer, Siyelo — November 2012–Present
Working as a web developer, practicing eXtreme Programming in terms of TDD, Pair Programming and Refactoring. My responsibilities vary from development and architecture design of Ruby on Rails applications, to front-end development with the popular JavaScript frameworks.

Projects

Pricing tool for Internet Solutions, www.is.co.za

Role: Developer
Responsibilities: Develop and design the architecture of a web application for Internet Solutions. This project streamlined their business from an Excel-based model to a Ruby on Rails application which provided great value to their sales team.

OpenFunction, www.openfn.org

Role: Core contributor/developer
Responsibilities: Develop the front-end of the application with Angular.js and Ruby on Rails.

Unboxed Consulting, www.www.unboxedconsulting.com

Role: On-site consultant/developer
Responsibilities: Oversight and development of the upgrade of Contiki (www.contiki.com) from Ruby 1.8 and Rails 2.3 to Ruby 1.9 and Rails 3.0.

Espresseco, www.espresseco.com

Role: Developer
Responsibilities: Developed the back-end of Espresseco's e-commerce website in Ruby on Rails based on Spree Commerce.

Funkudu, www.funkudu.com

Role: Developer
Responsibilities: Development and design of a Referral Partner System for Funkudu.

Lets Sell Lobster, www.lobsterink.com

Role: Front-end Developer
Responsibilities: Front-end development of the student-facing application of lobsterink.com. Also, actively included in the API design of the back-end service.

Education

University American College Skopje, www.uacs.edu.mk
Bachelor of Science in Informatics, 2009 - 2012

Technical Skills

Software development: Ruby, Ruby on Rails, JavaScript/CoffeeScript, HTML/HAML, CSS/SASS

Database management systems: PostgreSQL, MySQL, Mongo.db (beginner)

Software Design: Design Patterns, SOLID principles

Methodologies: SCRUM, Test-driven Development, eXtreme Programming

Version control: Git
